

ARTIST STATEMENT

Integrated environments that encourage viewer participation and community involvement have always been the focus of my artwork. I started as a graphic artist and painter, but my work quickly expanded to include fine art and large-scale public art. Several decades ago, I started Weitzman Studios, Inc. as the entity to handle my private commissions and site-specific public art installations. Since that time, I have created dozens of projects including outdoor urban environments, commemorative and figurative sculptures, as well as major highway installations and bridge designs. In 1998, I founded Creative Design Resolutions, Inc. to address the aesthetic needs of highway infrastructure and urban development projects. Shortly after that, I also established Creative Form Liners, Inc., the leading fabricator of custom form liners and FÖTERA® structural concrete and resinous terrazzo.

URBAN AND SITE-SPECIFIC PUBLIC ART INSTALLATIONS	
2019	Crown Development (concrete landscaping, engraved pavers), Gaithersburg, MD VII Crown Farm Owner, LLC, Westbrook Properties
	CDR's aesthetic design for this pedestrian park uses the Crown Plaza's theme of Innovation to pay homage to those in pursuit of discovery and originality by creating a place of respite around a pool of pavers that feature quotations by local innovators as well as colorful concrete treatments, and landscaping. The idea allows for the expansion of discoverable elements to be added around the city in the future.
2018	Marion Barry Jr. "Mayor for Life" (bronze sculpture and granite plinth), Washington, D.C. Executive Office of the Mayor, DC Commission for the Arts and Humanities
	Created a heroic-size bronze statue of the Honorable Marion S. Barry, placed outside of the Wilson Building on Pennsylvania Ave. in Washington, D.C.
2017	Kolb Road: Connection to Sabino Canyon , (bridge, sound walls, and public art sculpture), Tucson, AZ Tucson Pima Arts Council, City of Tucson Department of Transportation, City of Tucson, Psomas
	The design for the bridge's cast concrete approach markers is inspired by pattern work common to American Indian tribes of the region. A multi-hued CMU-block sound wall design was influenced by the surrounding majestic Catalina Mountains; the monumental cut-out Corten steel, walk-thru marks a transition along the trail along Kolb Road. The walk-thru is +/- 19' at its peak.
2017	Finalist for the Purple Line-Art-in-Transit Project , (design proposal), Silver Spring, MD Maryland Transit Administration, Purple Line Transit Constructors, LLC
	Selected from over 600 artists to create a public art proposal for the state's new Purple Line Light Rail project.
2017	Bust of the Father of the Nation (bronze sculpture and marble plinth), Washington, D.C. Embassy of Bangladesh
	A commemorative larger-than-life-size bust of Bangabandhu Sheikh Mujibur Rahman, installed on the grounds of the Embassy of Bangladesh in Washington, DC.
2016	Semi-Finalist for the Howard Theater Walk of Fame Project , (design proposal), Washington, D.C. DC Commission for the Arts and Humanities
	The development of fourteen 3' x 3' and one 5' x 5' medallion designs of noted entertainers to honor the historic Howard Theater in the Howard/Shaw community of Washington, DC. The medallions would be installed into the hardscape leading from the Howard/Shaw Metro station to the theater on T Street, NW.
2014	West End Historic Walk (FÖTERA® concrete, engraved bricks, colored pavers), Atlanta, GA City of Atlanta Office of Cultural Affairs, Department of Public Works
	This epic mural stretches the length of two football fields and includes FÖTERA® structural-concrete murals, colored pavers, and specialty text pavers. As visitors walk along this way-finding journey, they will find West End facts, people, events, and places. Some people will spend hours trying to discover all the details; others will gradually discover pieces of the story over time.
2013	Silver Metrorail Station Public Art Finalist (design proposal), Herndon, VA Washington Metro Area Transit Authority Art in Transit Program and Metropolitan Washington Airports Authority

	Created a conceptual public art proposal to affect the bridge deck interior including up and inlaid lighting for one of six new Metrorail station's connecting to the Dulles Airport in Virginia.
2013	Frederick Douglass (bronze sculpture), U.S. Capitol Emancipation Hall, Washington, D.C. DC Commission on the Arts and Humanities
	This bronze sculpture commemorates Frederick Douglass, the captivating politician and abolitionist who is portrayed as an orator, in the middle of giving a speech, and as a writer, with paper in hand and pen at his side.
2011	Cornerstones of History (FÖTERA®), Washington D.C. DC Commission on the Arts and Humanities, DC Department of Transportation, Michael Baker Engineering Co.
	This monumental mural was installed into a planned water feature located in a newly designed park in the historic H-Street neighborhood of Washington, D.C. Epic portraits of Duke Ellington, Bessie Smith, Dr. Martin Luther King, Jr., and Rosa Parks, who were instrumental in transforming the political and social fabric of the area, are combined with symbols of the neighborhood.
2011	The Great Map of Colorado (FÖTERA® epoxy terrazzo, Radio Frequency ID tags), National Harbor, MD Denver, Colorado, Colorado Creative Industries
	This unique 2,100 square feet terrazzo floor installation for the History Colorado Center's newly constructed home in Denver, CO. This plaza is made up of 234 pre-cast full color FÖTERA® tiles, when viewed at a distance resolves into an interactive topographical map of Colorado, as seen from 400 miles in space. Radio-Frequency ID tags embedded into the floor allows for a myriad of interactivity between the art and the people who travel across it.
2010	Spiro Mounds Archeological Center (FÖTERA® and stone), Spiro, OK Oklahoma Historical Society
	This 6' diameter icon was created in FÖTERA® Structural concrete terrazzo from an original ink-wash painting of the "Raccoon Warrior" by Donald R. Johnson.
2009	Goddard Sculpture Project (bronze sculpture, FÖTERA® concrete bench, form liners), Roswell, NM Roswell Museum and Art Center
	Based on a photograph of Robert H. Goddard, this life-size bronze figure peers through a "spotting" telescope at the rocket. The door of the launch control shed serves as a metaphoric portal allowing the community to access Goddard's ambitions for space. A mural illustrating Robert Goddard's life caps the 71' long courtyard bench.
2009	West End Livable Center Improvement Project (design proposal), Atlanta, GA City of Atlanta Office of Cultural Affairs Public Art Program, Atlanta Department of Public Works
	Seeking to improve pedestrian access and safety, an historic walk will be installed along Ralph D. Abernathy and Lowery Boulevards along with new landscaping and street lamps with banners to create a gateway into the Historic West End District.
2009	Western Heritage Parking Garage (design proposal), Fort Worth, Texas Fort Worth Art Commission
	Designs for this parking garage façade illustrate riders galloping horses, twirling lassos, and bucking bulls. When seen on a grand scale, these epic figures convey dramatic rhythm and movement, while reflecting the rodeo heritage and customs of Fort Worth.
2008	Chesapeake Journey (FÖTERA® concrete, granite benches), National Harbor, MD The Peterson Companies, Sasaki Associates
	Installed as part of a new development near Washington, D.C., this 1,618ft. ² hardscape for an outdoor balcony celebrates the region through its depiction of the Chesapeake Bay, portraits of historic figures, as well as nearly 90 other hidden objects. The names of these objects are inscribed on granite benches that line the length of the balcony, allowing people to make a game of discovering the icons.
2007	Bourne Bronze (bronze sculpture), Frederick MD Frederick Memorial Hospital

	This life-size bronze bust and breastplate commemorates Dr. Ulysses Grant Bourne, M.D., the first African American physician to work in Frederick County. He was also the founder of the local NAACP Chapter and the Medical Negro Society.
2007	Justice Prevails (FÖTERA® concrete, recycled copper), Upper Marlboro, MD Prince George's County Art in Public Places Program, HOK
	This mural depicts Justice overcoming adversity. It fills an interior wall in Prince George's County Courthouse, which suffered burn damage from an historic fire. The patinaed copper frame is made from scavenged pieces of the original Courthouse roof.
2007	Triad of Medicine (FÖTERA® concrete), Tallahassee, FL Florida State University, College of Medicine, Walter P. Moore Engineering
	Monumental portraits of Hippocrates of Cos, John Gorrie, and Elizabeth Blackwell honor these predecessors of modern medicine at Florida State University. Text and icons specific to each doctor contribute to the portrayals of Hippocrates the ancient scholar, Gorrie the inventor, and Blackwell the first female doctor.
2006	Patrons of Hibernian Hall (design proposal), Roxbury, MA Roxbury Center for Arts at Hibernian Hall
	Inspired by the bygone patrons of Hibernian Hall during the early to mid-1900s, this design called for mounting on the building facade silver and monochromatic aluminum cut-outs of four audience members clapping enthusiastically for the contemporary patrons.
2006	Florida Welcome Signs (design proposal), Tallahassee, FL Florida Department of Transportation
	As a finalist to design new welcome signs for the Florida Department of Transportation, I proposed signs that capture the natural environment and recreational activities of Florida, while also creating a sense of place for tourists, residents, and business travelers.
2006	Lexington Mural (design proposal), Orlando, FL Orlando City Place Arts Committee
	For a new condominium-hotel, I submitted four designs utilizing the Florida palm tree, one design depicting a local Floridian plant, and a final design being abstract. The mural would occupy a large niche below the hotel's roadway sign.
2005	Largo Sidewalk Art (FÖTERA® concrete, engraved brick, mosaic), Largo, MD Prince George's County Department of Public Works and Transportation, JMT Engineering, Jackson & Tull
	This project consists of 30 colored concrete icons, brick pavers, and mosaics incorporated into two miles of sidewalk, connecting two metro stations at Largo Town Center/Metro. Icons illustrating local historic figures and iconographic symbols of Maryland; brick pavers engraved with poetry, quotations, and factual references; and a mosaic wall bus stop and a mosaic plaza complete the design.
2004	City of Glendale Wall Art (cor-ten steel, glass, brick), Glendale, AZ City of Glendale Arts Commission
	Four larger-than-life steel silhouettes commemorate the industrious Glendale Field Ops Facility employees, who are represented in the process of doing their everyday tasks. Fabricated from oxidized cor-ten steel, these cutouts are mounted slightly away from the wall and change color, tone, and hue as weather rusts the steel.
2004	Chase Towers Installation (bronze, granite, cast stone, water feature), Chevy Chase, MD JBG/TrizecHahn
	This interactive urban environment is comprised of three main components: 1) a 34-foot clock fountain that refers to future time, 2) a 14-foot bronze Armillary Sphere that alludes to ancient time, and 3) concrete text panels that reflect on the ephemeral nature of time.
2004	Grosvenor Garage (design proposal), Bethesda, MD AvalonBay Communities, Inc

	This green design proposal includes steel silhouettes and trellises in the shapes of trees covering the façade of a concrete parking garage to camouflage the structure. An irrigation system allows plants to be fed by rainfall and runoff.
2003	Columbia Heights Metro Station (design proposal), Washington, D.C. Washington Metropolitan Area Transit Authority, DC Commission on the Arts and Humanities
	As a member of the master plan design team to revitalize the metro station and adjacent park, I developed a plan that includes mosaic benches, colored concrete murals, creative lighting and water features. Twenty-foot “Lily Light Standards” are streetlights that pedestrians can open and close like real flower petals to provide shade during the day or brighter illumination at night.
2002	Nick Bottom (bronze sculpture), Bethesda, MD Bethesda Academy of Performing Arts
	This five-foot bronze statue of the character Nick Bottom, inspired from Shakespeare’s famous play “A Midsummer Night’s Dream,” is installed in the lobby of the Imagination Stage Theater at the Bethesda Academy of Performing Arts.
2001	A Fish Out of Water (fiberglass), Baltimore, MD Downtown Baltimore Business Association
	Cast in fiberglass 200 times, the oversized whimsical fish design was used as the “canvas” for local artists. Displayed in many areas throughout downtown Baltimore, these colorful fish were used in the community to help raise \$850,000 for charity.
2001	Smith Chart Sundial (design proposal), Columbia College, MD Columbia College
	Serving as an open plaza at Columbia College, the needle of an oversized compass functions as a sundial gnomon marking the time of day. In addition, engineering students can plot actual problems using a to-scale Electrical Flow Chart superimposed on the compass face.
2001	Aberdeen Train Station (design proposal), Aberdeen, MD City of Aberdeen, Maryland Transit Administration
	Renovations and additions to the existing train depot include a new pedestrian overpass, wrought iron gateways, and signage. Site- specific components, such as metal cutouts of commuters, are integrated into the railings to enliven the utilitarian infrastructure.
2000	Elijah Pierce (bronze sculpture), Columbus, OH
	This larger-than-life bronze and cast stone monument commemorates Elijah Pierce as both a sculptor, with his tools, and as a devout Christian, with his hands clasped in prayer.
2000	Brentwood Veteran’s Park , Brentwood, Maryland City of Brentwood, Maryland
	This pocket park redesign includes pathways with memorial paving, the Veteran’s Seal and the Town Crest, honoring local heroes.
1999	City of Rockville Map (granite), Broome Athletic Park in Rockville, MD Montgomery County Arts Commission
	A 12-foot square granite design with bands of polished brass serves as a map of Rockville, Maryland, showing all city streets intersected by major highways.
1993	Phillips Park Zoo (cast stone), Phillips Park Zoo, Aurora, Illinois Illinois Arts Commission
	Two cast-stone bear cubs and animal relief panels cap two gateway place-makers at the entrance of Phillips Park Zoo.
1992	Workmen Fountain (bronze, brick, granite), Laurel, MD Washington Suburban Sanitary Commission

	This figurative fountain commemorates the employees of a public utility company. Placed in the lobby of their corporate headquarters, this fountain depicts two workers aggressively trying to close an 18" horizontal gate valve that appears to have burst through the floor.
1992	Whispers (cast stone), Silver Spring, MD Maryland National Park and Planning Commission
	Captured in an intimate moment of secret-sharing or story-telling, these children serve as a symbol of youth. The sculpture embraces the dynamic, yet sacred, sphere of a child's playground.
1990	Volunteers (wood), Smithsonian Institution's National Zoo, Washington, D.C. (original site)
	This commemorative 30' sculpture, dedicated to zoo volunteers, was carved from a seven-ton, 100-year-old white oak on site at the National Zoo. It was exhibited before an estimated four million people during the two years of sculpting.
1990	Patrick Henry Memorial (bronze), Red Hill, VA Patrick Henry Foundation
	A 12" award created for the Patrick Henry Foundation to commemorate contemporary American patriots, presented to H. Ross Perot.
1988	Aspirations (cast stone), Germantown, MD
	Appearing to burst through the wall, the teacher and his three students are shown overflowing with excitement and inspiration at the Quince Orchard High School in Germantown, MD.
1988	Alice (FÖTERA® concrete, stainless steel), Germantown, MD
	Created for the Waters Landing Elementary School, this anamorphic installation is constructed from 30 precast FÖTERA® sections, making up an obscured image of Alice and the White Rabbit which sharpens into a recognizable illustration as visitors approach the mirrored column.
1986	Caretakers (wood), New York City, NY (original site) United Nations
	Sculpted from a 200-year-old American elm, for the United Nations Plaza during the celebration of the 40th anniversary of the United Nations.
1986	Tree Eagle (wood), Crossroads Mall, Boulder, CO (original site) Boulder Redevelopment Corporation
	Landing atop a large boulder, this eagle has a wingspan of 14 feet. It was sculpted from a 9½ ton, 12' high cottonwood tree.
1980	Spirit of Niwot (bronze), Boulder County Courthouse, Boulder, Colorado City of Boulder This commemorative bronze bust of the last Arapahoe Chief in the Midwest is located in front of the Boulder County Courthouse.
